ABOUT US

ENTERTAINMENT GAMES-PRODUCTION & SALES

PI Game; mostly produces, supplies and sells crane games, reward games and certain types of ticket winning games at affordable prices.

In the production process, we work with the quality assurance system even in the smallest details and ensure full control of the products.

To ensure the highest quality affecting the most popular buyers worldwide, each product is undergoing long and rigorous testing by our quality control department.

DEVELOPMENT & DESIGN

**DEVELOPMENT & DESIGN & CUSTOM PRODUCTION
WITH CARNIVAL GAMES MACHINES
THE LATEST TREND IN THE WORLD
TICKET REDEMPTION GAME SYSTEM**

Pi Game is always open to new ideas and concepts to create new and entertaining games. Pi Game; follows the technological developments and innovation of the sector in the world in fairs and virtual environments and adapts to the production process. In this process, it never compromises on originality and creative approaches.

Pi Game intensifies its concept and work especially on the interactive part of carnival games and ensures that the gaming system works with electronic tokens, tickets. In this way, players win promotional reward gifts with ticket coupons that they collected with excitement. By purchasing Carnival game machines with ticket coupon games, you can connect the customer to yourself and quickly pay off your investment cost.

From programming, mechanical design, graphics and brand-specific design to game operating solution, we help you make your unique ideas a reality.

We combine our customers' ideas with decades of experience of our development team, and through this collaboration we create more innovative and revenue-driving products for the entertainment industry.

■ TECHNICAL SUPPORT

TECHNICAL SUPPORT & AFTER-SALE SERVICE

Pi Game provides spare parts and technical support services for games.

It provides 24/7 online support, returns to service calls as soon as possible, and provides comprehensive training to your staff to maintain and run the games.

if necessary,
Pi Game will send technicians to assist customers in their workplaces to ensure that customers make the most out of their gaming products.

Owl's Eyes

**It's not as easy as it looks,
you can be a winner or a loser!..**

Something is following you with its eyes, would you like to catch it? 1980s favorite game with a new design, a new aesthetic and the latest trend in the world.

With its ticket redemption gaming system, Owl's Eyes come to life for you.

Powered by the laws of physics and the composition of hand, arm coordination, this extraordinary skill game is equipped with amber light and illuminated joystick. Green-light LEDs were used on the cabin sides to suit the design.

The game is based on the ability to put the ball in the holes whose light is lit by moving up and down the ball on the balance bar. The game has 10 stages. Each step will save you from the chase of the eyes and lead you to victory.

If you don't want to be captive to the threatening eyes of owls, you have to catch those eyes one by one!.. Rest assured, it's not easy to cross 10 tiers with three rights! But if you pass, the greatest gift is yours!..

Dear sector companies, we are bringing you the newest of the oldest, do not be late for this appointment!..

Owl's Eyes

You can do it, my love

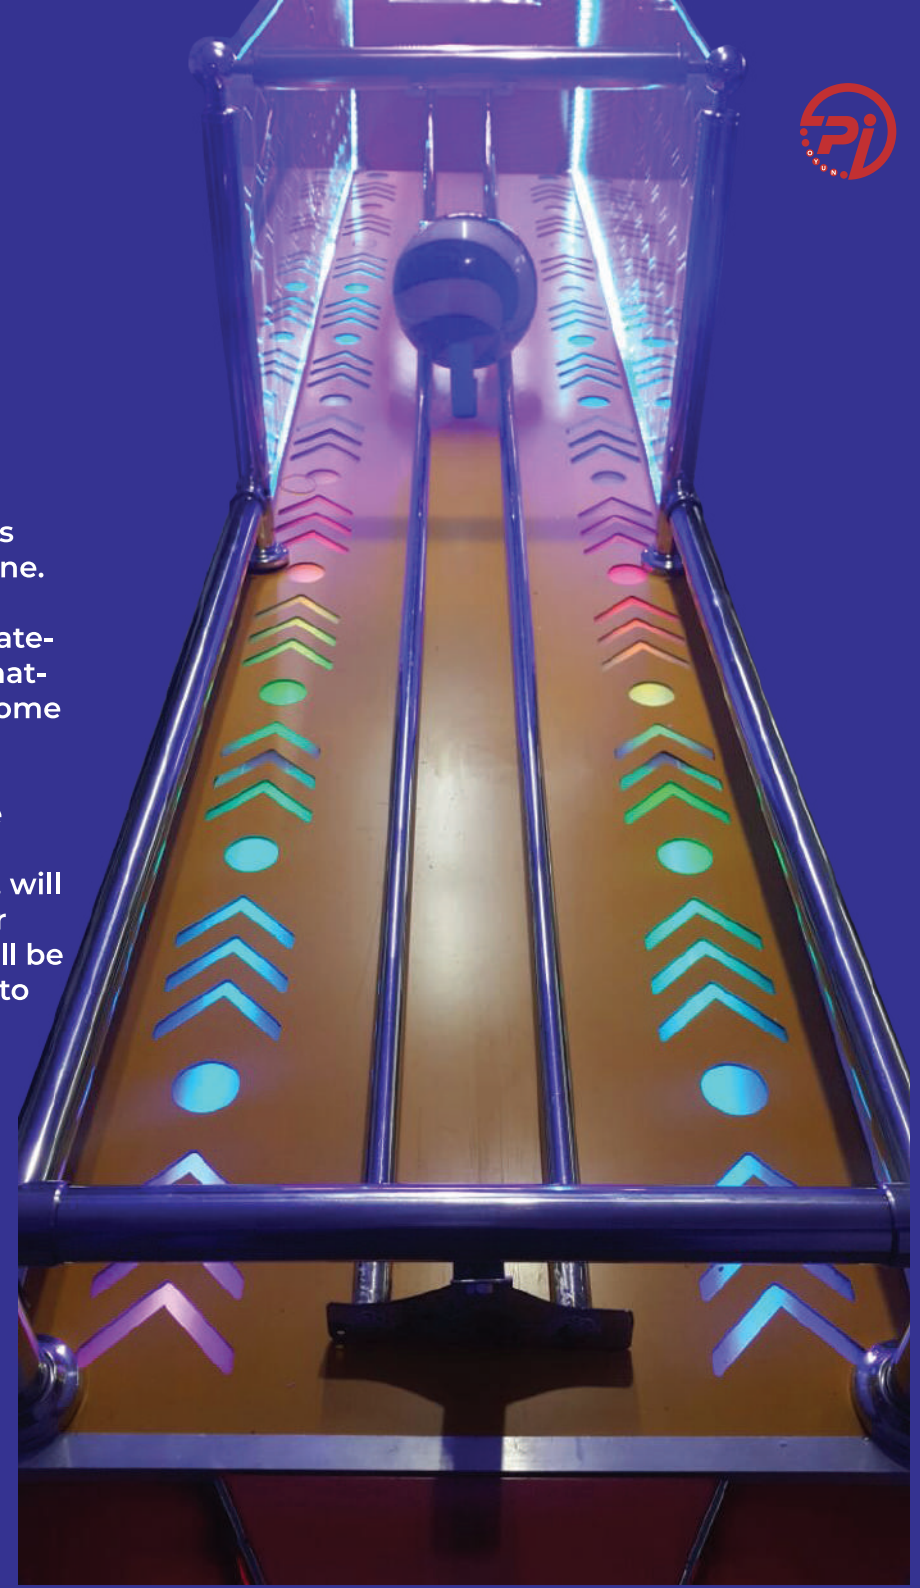

It's so hard but , "You can do it, my love!"

A little courage, a little motivation, but the most proportional use of speed, strength and balance. It's so hard but "You can do it, my love!" " Lucky Ball ", also one of the carnival classics, is has been converted into the latest trend in the world for you "ticket redemption gaming system". Are you ready for nostalgic thrills? Two shots for a token, if you score 2/1, you get one ticket, score 2/2 five tickets!

The goal of the game is to push the ball and cross the first ramp and stop it in the back pit. The 2/1 score is hard enough!.. The score of 2/2 is very difficult!..

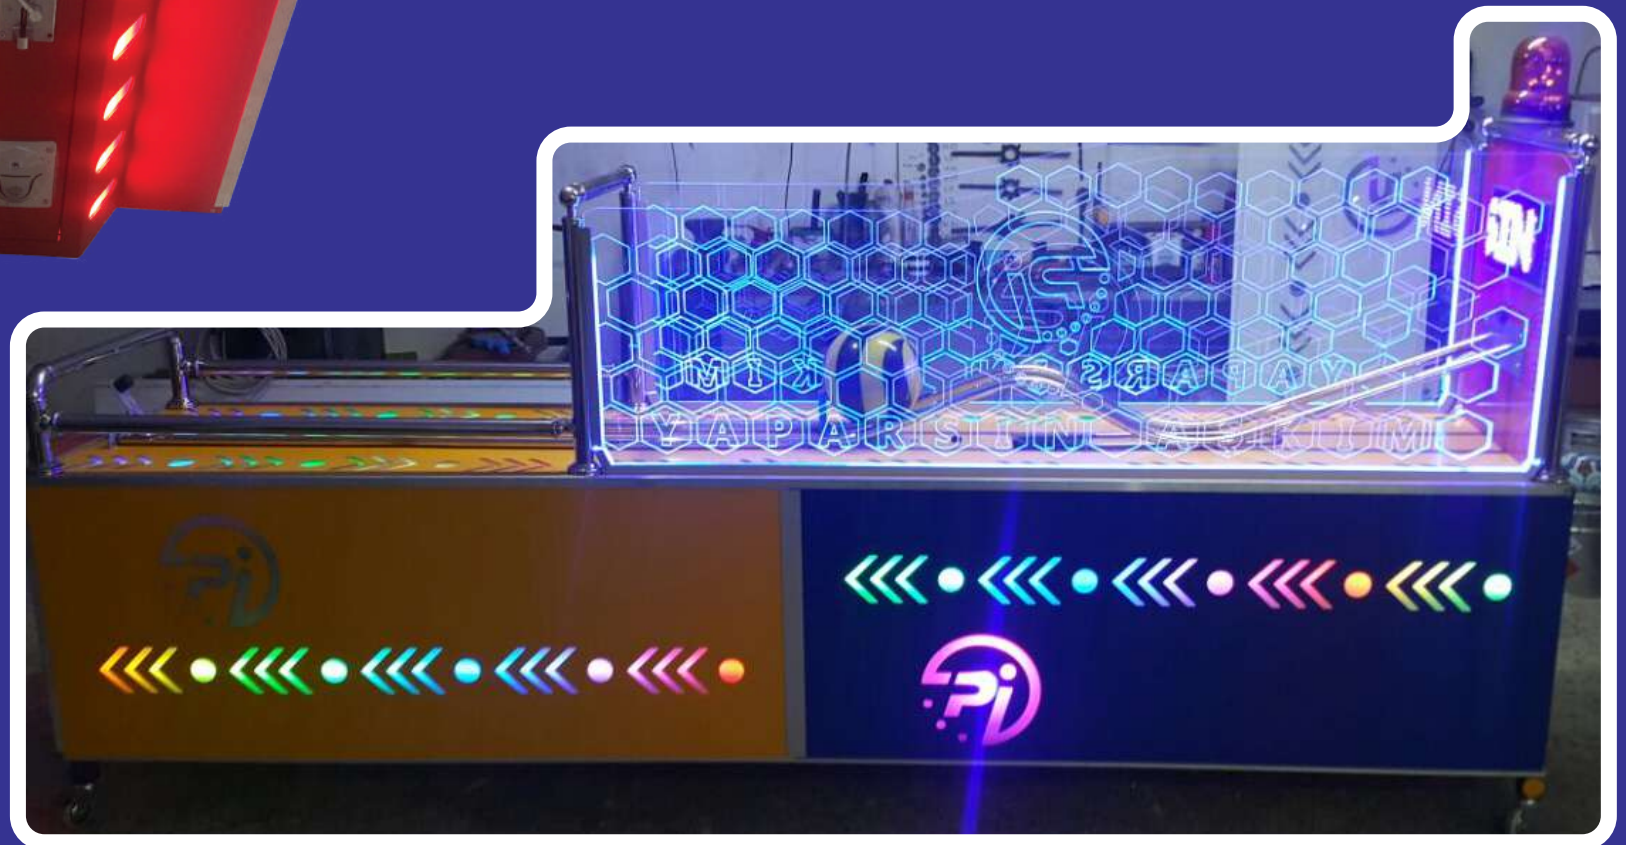

You can set the number of tickets given to the scores on our machine. The entire machine was created from aluminum composite zit material on the profile carcass. Illuminated with WS 2811 pixels LEDs. Chrome nickel pipes were used.

The "You Can Do! My Love" game machine, where aesthetics and quality meet at the highest level, will be the most valuable asset of our precious industry friends! You will be honored to give this satisfaction to your customers.

■ You can do it, my love

Veni Vidi Vici

With PI GAME You will come, see and beat!

A real excitement and refreshing taste!..

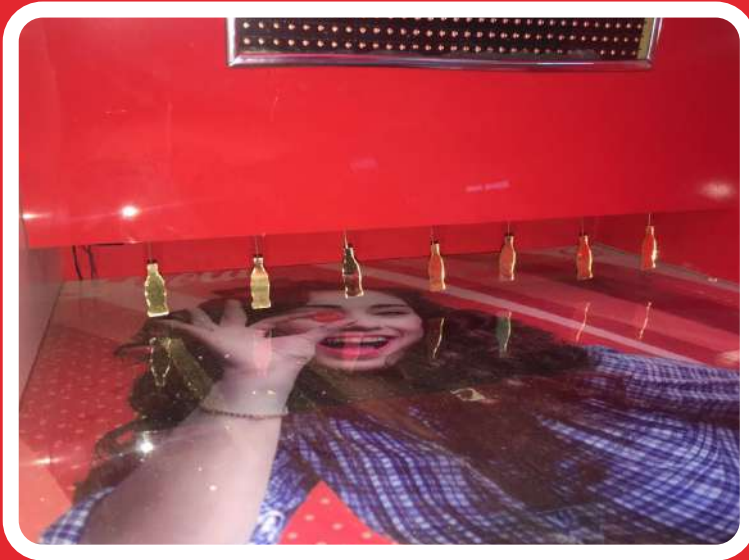

The fastest token collection machine!.. It's in your token vault in just two seconds!..

PI GAME has produced this Italian-designed machine for you, which is a complete token monster. When you throw tokens, your token goes through the mechanism that guides right and left and falls on the sloping (UV printed) glass surface, and if the token hits one of the tiny bottles at the end of the road, your ticket is ready and refreshing taste is with you!..

A hundred advertiser LEDs were used on the lower surface of the UV printed glass, thus creating a glass artwork. This machine, which you will play with pleasure, will appeal to both your eyes and your heart!.. As usual PI GAME introduces innovations to companies in this sector!

Shark & Surf

Pi Game offers the brand-new entertaining game Shark & Surf at your service now!

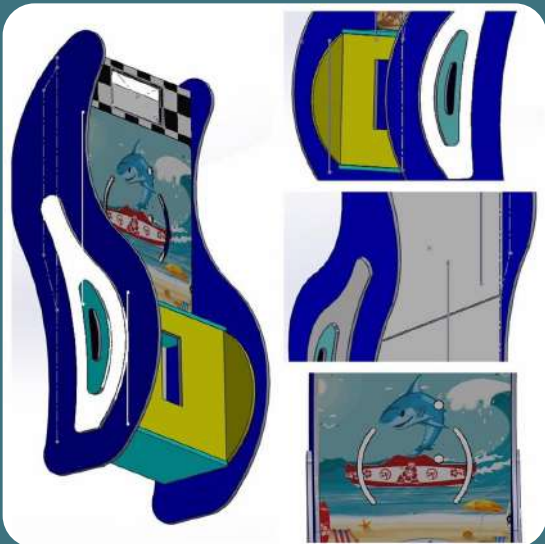

You have to balance on the surf or the shark is ready to swallow you!..

Stunning furious shark image on the top and glowing lights along both sides ,moving models of live sharks... Shark&Surf is a 100% sports game based on players keeping the ball at the slope in the center of the surfboard. It features a classic digital platform that displays points and time.. When you throw the coin the barrier releases the ball, the ball is moved above the surfboard by the lift at the back. Now, you have to stay in balance to fight the shark. To stay balanced, you must succeed in at least one of the two rights. That's enough to beat the furious shark and buy gift tickets!.. Shark&Surf will give you an exciting and entertaining gaming experience! Come on, jump on your surfboards!..

The companies that purchased this excellent machine will make their customers happy with the original and unique design of THE PI GAME.

Shark & Surf

Hit/Knock

"Hit/Knock" is for you so you can play with your friends with joy and excitement!..

Minions are falling to the ground!

It is designed for people of all ages and to allow two players to play side by side with high scores.

And you can win as many tickets as possible!..

"Hit/Knock" is one of the games you will like the most!

1 or 2 players throw balls at mechanical Minions, the more you knock down Minions, the more tickets you earn!

The targets are arranged with a special concept and illuminated with blue LEDs. Three of the targets randomly turn red and hit the targets in the meantime, surprise! You will get double points! Your success and excitement will be accompanied by sound effects!.. Oh, be careful Don't let the Minions make fun of you when you miss! Companies that want to include this machine in their concepts will witness the unique and exciting experience of their customers.

Hit/Knock

Airsoft Poligon System

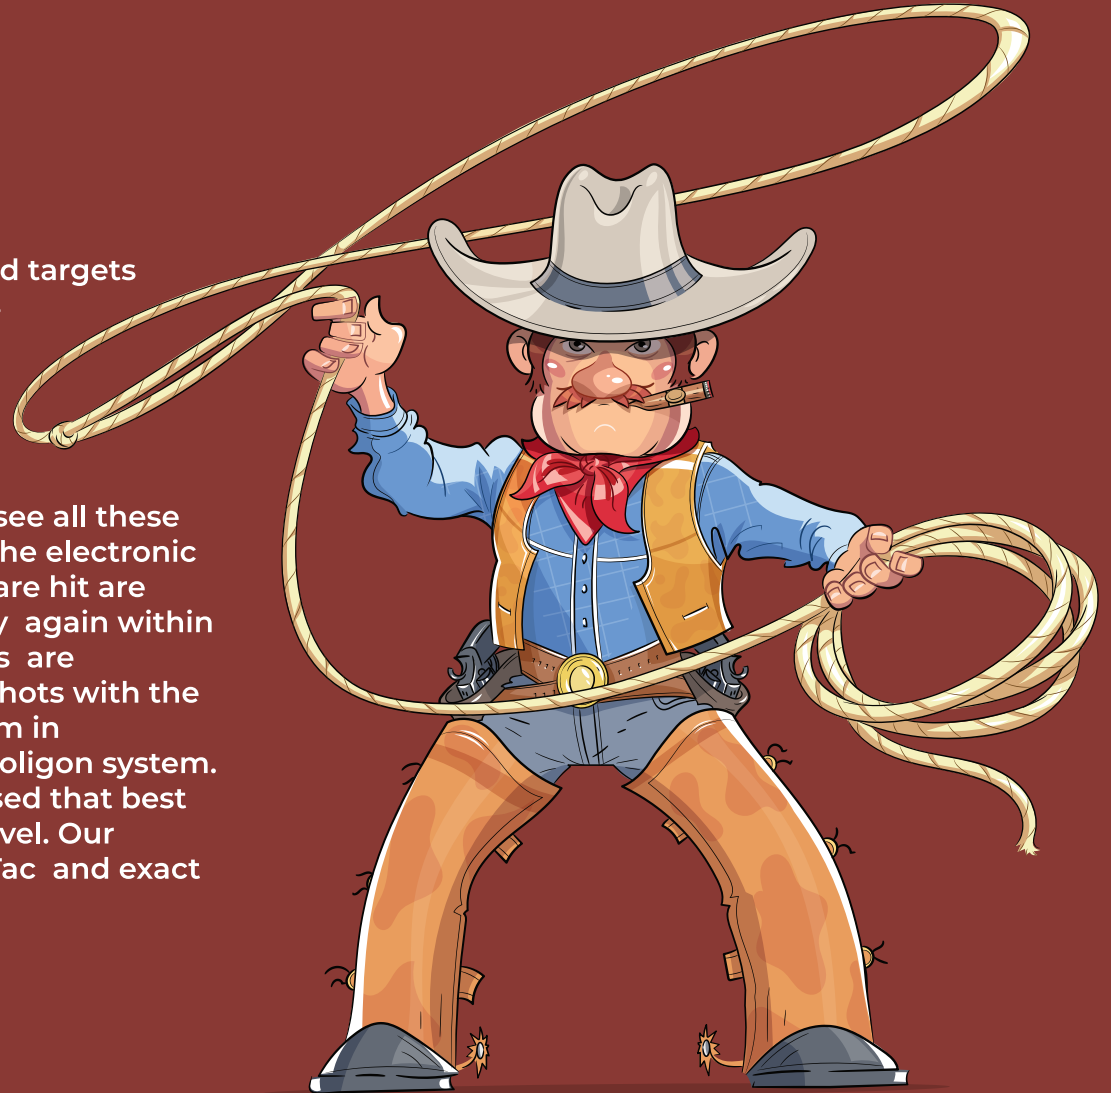

The targets are waiting for you!
And now you're the warrior
you want to be!

It doesn't matter how skilled you are, as long as you want to try this excitement!.. You can be more adept than the masters! There is Pi GAME for the closest design and installation to reality. It will accompany you in your excitement and unique experience.

Are you ready to become a cowboy or welcome those who come in a Texas town with 3D visuals, lighting, sound system and weapons closest to reality?

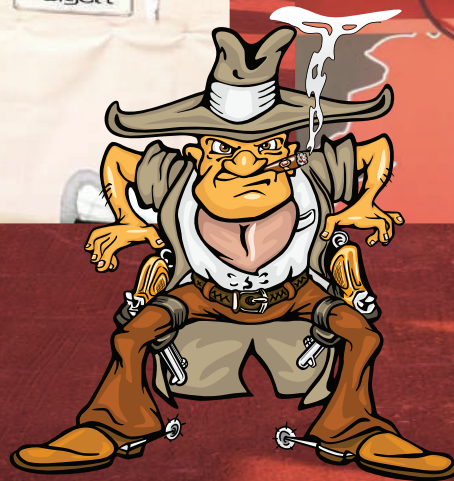

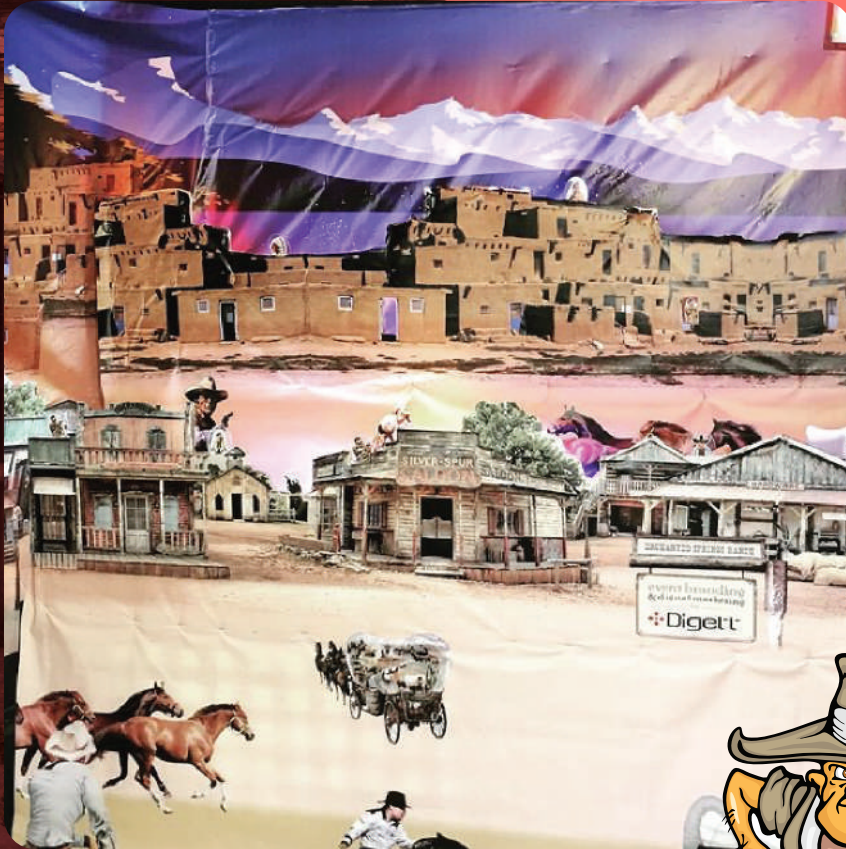

The targets are made of unbreakable plexiglass.

There are 12 illuminated targets and four of the targets have been given mobility. When targets are hit, it falls and screams with the help of the sensor and engine on it. You can see all these actions as scoring on the electronic screen. When targets are hit are randomly ready to play again within 5 second. The weapons are allowed & locked to 15 shots with the chip placed inside them in accordance with the poligon system. Airsoft weapons are used that best suit reality and age level. Our weapons brand is KryTac and exact replica.

Airsoft Poligon System

Electronics Dart

Another new game to play with your friends with excitement!

"By World Darts Federation standards, the center of the dart board (bullseye) must be 173cm above the ground, the "horizontal" distance from the dart board to the firing line should be 237cm." In accordance with this standard, the distance that users will shoot is drawn on the ground by laser. The highest quality high class MDF board is used as dart material in accordance with Pi Gaming standards.

The shooting turn and the score system are displayed on the 32x16 cm LED signboard. Players determine the game mode and number of players on the electronic panel.
